ANNUAL REPORT

OF THE

SCHOOL BOARD.

As we present you with our report of the school for the year just closed, we feel to congratulate you and ourselves on the good degree of success attained. Teachers have shown commendable zeal and ability in their work. Scholars have shown a good degree of interest in their studies, and consequently have made satisfactory advance.

Circumstances have compelled some changes in the board of teachers, but the rule has been to retain teachers in the same school where they give good evidence of their ability as teachers.

It will be seen by this report that we have reduced the number of schools by one. The number of scholars in the old No. 2 District had become so small that it did not seem advisable to continue a school at that place, as the scholars could be carried to another school at less expense, where they would enjoy equally as good advantages. With such a limited number of scholars, it is difficult to maintain a good degree of interest in the school. We are pleased to see the good degree of interest that has been shown by parents in the schools of the town and hope that this interest may increase and spread till all shall aid in making our schools a grand success.

ANNUAL REPORT
OF THE
BOARD OF EDUCATION,
UNION DISTRICT.

In making our report of this year we feel that the several schools under our charge have made good progress, owing largely to the introduction of a course of studies which was introduced in 1893. The several grades are now feeling the good results, which we are confident will be apparent to all who will take the trouble to attend the closing exercises in June.

We wish to call the attention of parents and guardians to the department, or monthly report, which is presented to you from time to time, as this is the standing of the pupil; it is your duty if not satisfactory to you, to go to the teacher and find the cause and, if possible, have it removed.

There did not seem to be any call for an evening school, and the appropriation made for same is in the Treasurer's hands. We suggest it remain there for the next year's evening school if there should be a call for the same.

The district has now paid fifteen hundred dollars on the Dr. Gould lot; three hundred dollars and interest now remains, which we recommend be paid this year and thereby clear the district from debt.

Under instructions from the district at the last annual meeting we have secured, through Mr. Frank Hill, the necessary legislation to enable the district to have, at all times, two old members on the board.

The annual meeting will be called on Friday evening, March 22, 1895, at which time you will be called upon to elect one member for one year, one member for two years, and one member for three years.

The number of pupils in attendance during the year, by rooms and total:

Primary First Grade,	boys, 35	girls, 31
Second, "	"	"
Third, "	" 33	" 18
Fourth, "	"	"
Fifth, "	" 26	" 10
Sixth, "	"	"
Seventh, "	" 20	" 23
Eighth, "	" 23	"
Ninth, "	"	" 17
Total,	137	99

Total boys and girls, 236.

These figures are for 33 weeks. They would not vary much for the full year of 36 weeks.
